

# IMC OCEAN ADVENTURE

24 June - 19 July, 2024

Monday-Friday | 9.00-15.00

Students ages 2-6 years

Fee: **25,000 Baht**

(Including Snacks, Lunch & Field Trip)

W1

Exploring Coastal Habitats

Exploring coastal habitats is like going on a beach adventure! We find lots of cool creatures and plants by the ocean. Coastal habitats are homes for fish, crabs, and more. We will learn how to take care of the ocean when we explore these special places.

W2

Deep Sea Discoveries

Deep sea discovery is like going on an exciting underwater adventure! Scientists explore the ocean's depths and find amazing creatures like glowing fish and giant squids. It's like discovering a magical world beneath the waves!

W3

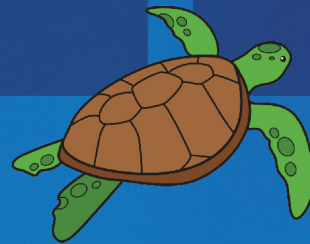

Marine Mammals

Marine mammals are ocean animals like dolphins, whales, seals, and sea lions. They have special bodies for swimming and playing in the water. They are our underwater friends!

W4

Ocean Conservation

Ocean conservation means taking care of the ocean and all its animals. We can help by keeping beaches clean and using less plastic. Let's protect the ocean for fish and dolphins!

Field Trip to **SEA LIFE** Bangkok  
(Siam Paragon)

**ENROLL BEFORE  
31 MAY 2024**
